Solid surface washtroughs
For luxury, strength and a
smooth, seamless finish, our
solid surface washtroughs
win hands down.

Washtrough

Solid surface washtroughs

The carefully composed blend of acrylic minerals and integral moulded reinforcements creates a low maintenance, non-porous material with impact and thermal shock resistance. Solid surface washtroughs are fantastic in hygiene critical areas, such as schools and are custom made for your project. Available in twelve finishes, they are manufactured to a consistent colour, stone-like appearance.

01 WT3 profile solid surface washtrough in Everest with Sensorflow 21 compact mixer deck mounted taps.

02 WT1 profile solid surface washtrough in Vesuvius with SanCream basin mounted self-closing mixer taps.

WT3 profile stepped solid surface washtrough in Everest with Aquarius A45 sensor taps.

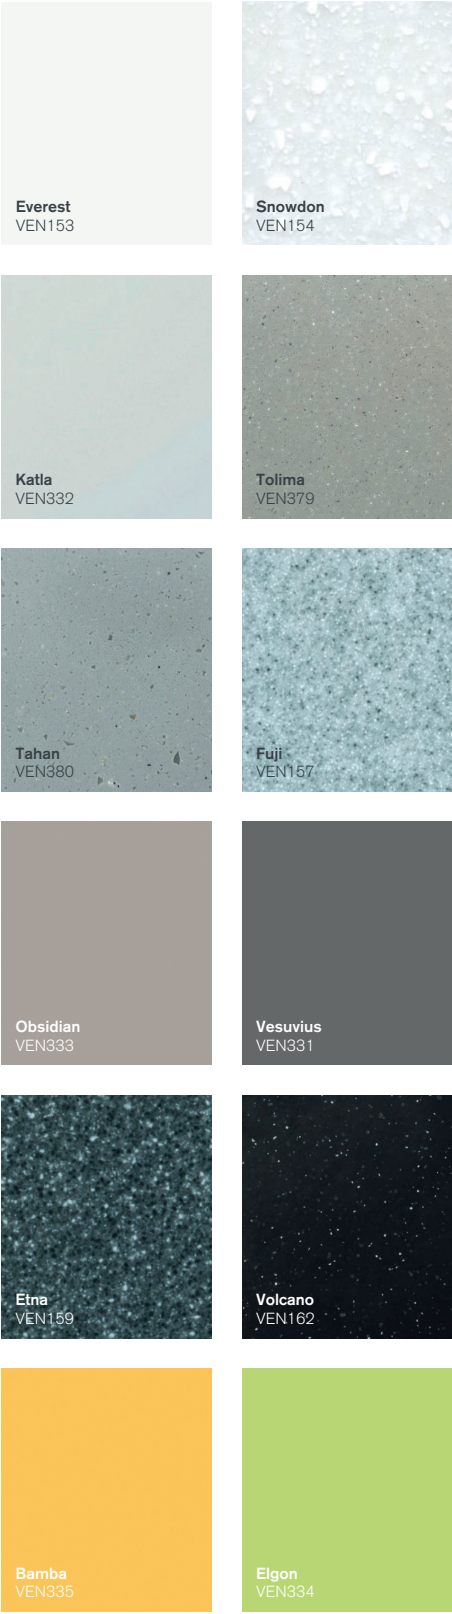

See p8 for solid surface washtrough technical specifications.

Key features

- Sleek, solid material ensures durability and consistency
- A choice of 12 finishes
- Stunning stone-like appearance
- Wall hung with cantilever brackets or supported on an underframe
- Minimal joins make it a hygienic vanity option
- Space efficiency
- Up to 3000m single washtrough length
- Choose from deck or wall mounted taps

Timeless finishes.

A proven blend of minerals and acrylic polymer delivering a stone appearance that ensures colour consistency and durability, while adding a touch of luxury to any washroom. Make an impact with an energetic and vibrant colour like Bamba, or opt for a more muted colour like Katla to create a clean, minimal look.

01 WT1 profile solid surface washtrough in Everest with Avon 21 push button self closing mixer tap. SGL underframe in Porcelain and Pacific.

Main image WT4 profile solid surface washtrough in Everest with Hartley mono vessel basin mixer taps in matt black. 1300mm width Mirror Box Unit and Sahara HPL toilet cubicles in Porcelain.
