

Key features

- Shaped doors and partitions
- Available in 4 door heights
- Total colour flexibility
- Anti-finger trap hinges as standard
- Emergency release door mechanism
- Suitable for wet and dry environments
- Set back pedestals for a floating appearance

Genesis

Genesis is a popular choice for primary schools and nurseries thanks to its flexible design. Featuring four door height options and clever safety features, including anti-finger trap hinges and emergency release indicator bolts or optional magnetic catches, Genesis is ideal for the entire 2-11 age range.

01 ABS indicator bolt fascia in Light Grey.

02 Headrail and shaped partition detail.

Case Study Alexander McLeod Primary School

“The Genesis cubicle range was the perfect solution for this primary school, plus the wide range of colours gave the school total design flexibility.”

Tony Starr, A F Starr

South East London-based Alexander McLeod Primary is a school where students model the high expectations and standards that are promoted at all times. The school aims to create an environment where all children can grow and flourish.

During a recent renovation project, attention was turned to the student washroom facilities. The existing toilet cubicles and vanity units were antiquated and hard for the facilities team to maintain, resulting in an uninviting space for the students to retreat to.

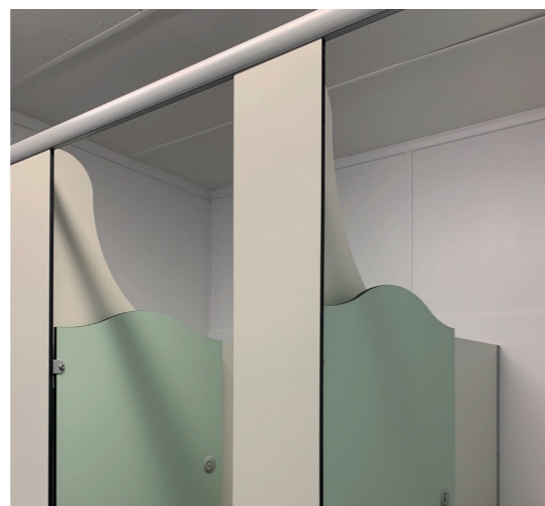

We worked with builders A F Starr to ensure fit-for-purpose education washroom systems were specified for the younger year's children. There was a requirement for washroom solutions that would be easy to clean and maintain whilst giving the staff the ability to supervise younger children using the facilities, where necessary.

Our popular Genesis toilet cubicles were specified in Solid Grade Laminate (SGL) in our Duck Egg and Suede finishes. Not only is SGL water and scratch proof, but its smooth surface will allow the school to uphold strict cleaning regimes to keep the school toilets sanitary for students.

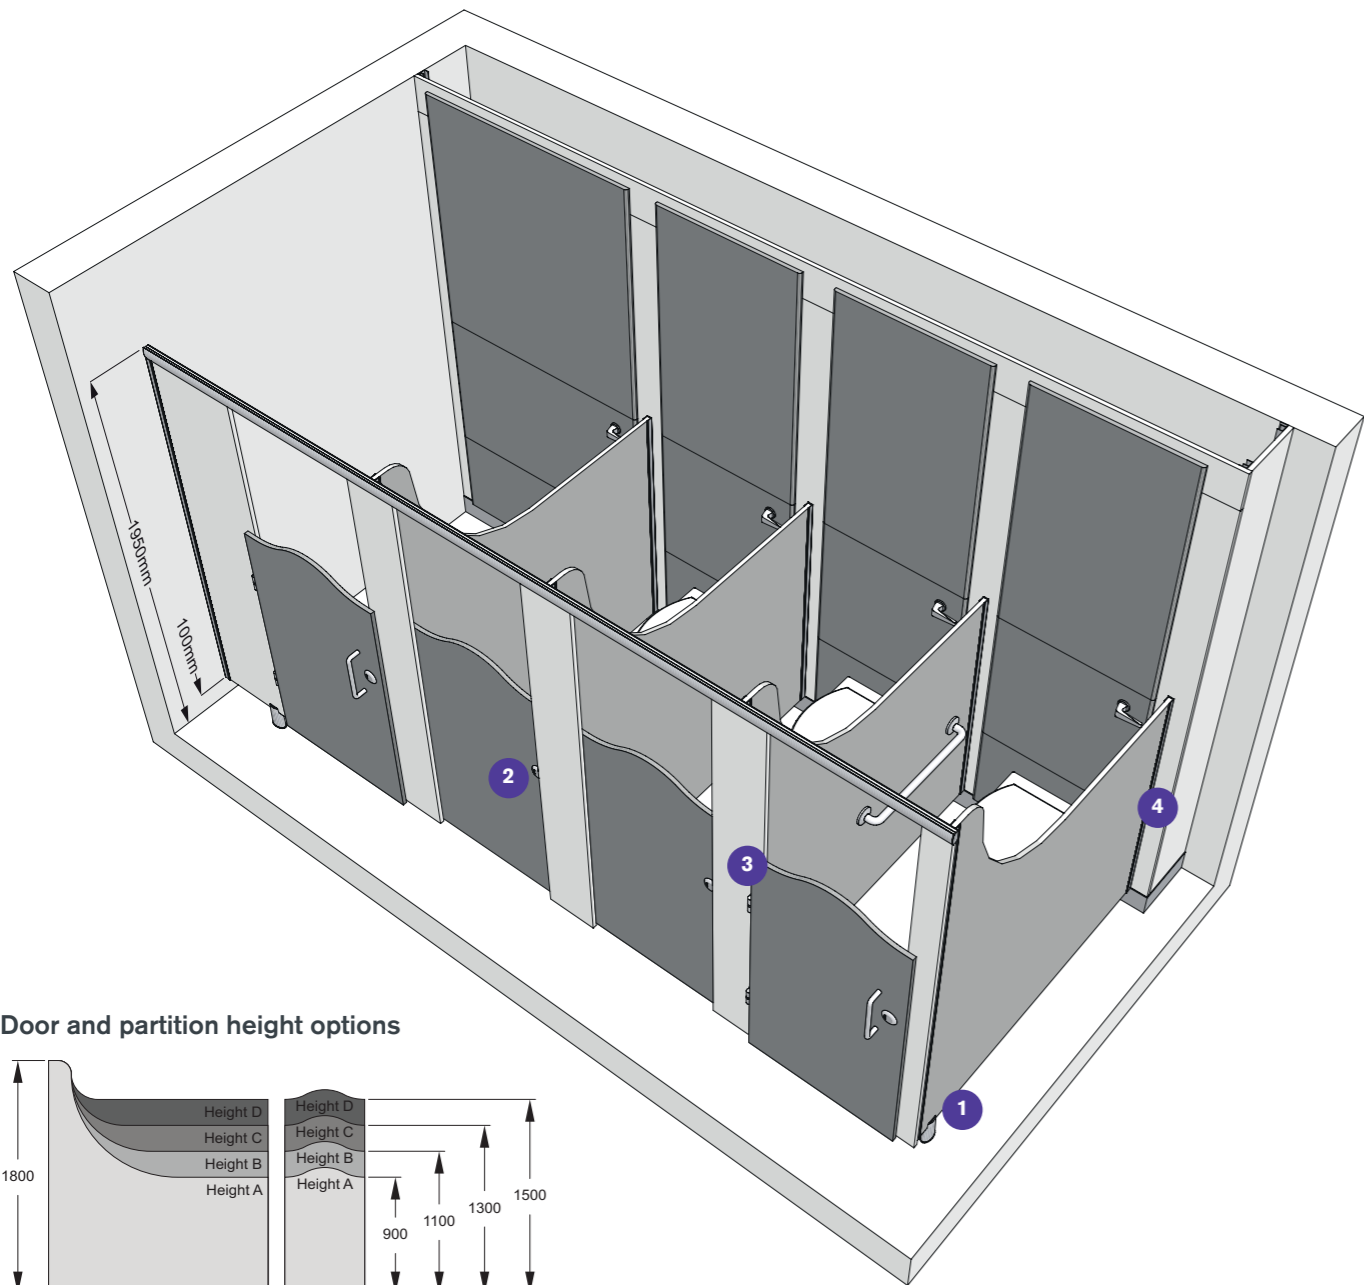

With 1300mm high cubicle doors and shaped partitions, staff will be able to supervise students when required. Genesis' anti-finger trap hinges and emergency release indicator bolts made it an ideal cubicle choice.

The primary school opted for complementing SGL vanity units in matching colours. With its hardwearing, durable properties, SGL guarantees long-lasting washroom systems in busy environments such as schools.

Technical Specifying Genesis

Door and partition height options

Dimensions

Overall height	1950mm
Door height options	
Height A	900mm
Height B	1100mm
Height C	1300mm
Height D	1500mm
Maximum depth	
MFC	2097mm
HPL	2067mm
SGL	1921mm
Floor clearance	100mm

Vanities

Genesis vanities are available in 600mm, 675mm, 750mm and 850mm height options.

Performance

Available in three material options, Genesis is suitable for every type of wet or dry environment, allowing you to specify the most appropriate option to meet the site requirements and your budget.

MFC
For dry environments with low risk of vandalism. Panels are manufactured from 19mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

HPL
For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 19mm nominal thickness. Edges lipped with ABS.

SGL
Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

Detailing

Panels and doors
Available in MFC, HPL and SGL.

Colour finish
MFC, HPL and SGL
34 colours from the standard range.
Cubicle hardware
Light Grey ABS, satin anodised effect powder coated zinc and satin anodised aluminium.

Edge treatment
MFC and HPL
Matching ABS lipping.
SGL
Polished black radiused edge.

Headrail
Easy to fix, one piece construction, in satin anodised aluminium with matching end cap.

Cubicle hardware
Indicator bolt
Light Grey ABS or satin anodised effect powder coated zinc easy grip indicator bolt and keep with emergency release facility and concealed fixings. Magnetic catch option in lieu of indicator bolts.

Hinge
Satin anodised effect powder coated zinc anti-finger trap safety hinge in Light Grey.

Pedestal
Height adjustable for uneven floors, with concealed fixings, available in Light Grey ABS or satin anodised effect powder coated zinc. Where possible, pedestals are fixed to partitions.

Fixings
Partition to wall: Continuous satin anodised aluminium U-channel.
Pilaster to partition: Continuous satin anodised aluminium U-channel.
Pilaster to wall: Continuous satin anodised aluminium U-channel.

Accessories
Coat hooks and toilet roll holders available.
