CV1 Vanity Unit  
& Baby Change  
Unit

### The project.

Based in a converted Victorian house in the West Midlands, Rainbow Nursery decided that to enhance their already warm and bright day care setting they would undergo a complete refurbishment of the old washroom and changing facilities. A full fit out of the washrooms was completed by Venesta Accredited Installers T-IPS, who replaced the toilet cubicles, vanity units, washroom panelling and all sanitaryware.

### The solution.

The nursery opted for Venesta's Genesis toilet cubicles, a popular choice due to the versatility of the system and its many customisable features. Genesis cubicles with low level doors and curved partitions were specified, giving the children the freedom to be self-sufficient, whilst maintaining the ability for staff to safely supervise the facilities at the same time.

Genesis cubicles have been created specifically with young children in mind and boast many safety features, including anti-finger trap hinges and an emergency door release mechanism for complete peace of mind.

The toilet cubicles were specified in High Pressure Laminate making them ideal for nursery usage, allowing for easy cleaning and simple maintenance, meaning they really will stand the test of time. Rainbow Nursery specified their cubicle doors in our 'Colours' screen print, for a fun and cheerful design. This perfectly complements the 'Papaya' pilasters and partitions and Vepps pre-plumbed panelling in 'Lime'.

For cost savings and reduced installation times, our Vepps pre-plumbed panelling system was specified. The panels come with WCs and flushes factory fitted and fully tested, meaning installation on-site is 50% faster than plain panel alternatives. Vepps also ensures simple maintenance to allow for low down-time if repairs to the plumbing are ever required.

In addition, low level vanity units were installed featuring semi-recessed basins. Two baby change vanity units with an anti-roll profile were also specified for the new washroom facility, making it easy and practical for staff to tend to babies in their care.

It was a pleasure to provide such a fun and vibrant solution for the renovation and are pleased to hear that the new washrooms have been a huge hit with the children and staff at Rainbows Nursery.
